Notes from the Editor

Inside, you will find my demonstration report. How do you start to document the segmented turning of John Bradbury? It would take far more space than I have available here, so I'm not even going to try. They say that a picture is worth a thousand words, so I'll let my pictures do the talking. I took 84 photos on the night. Here are the best of them. If you don't understand how John achieved some of the results then you will not be alone. I was at the demonstration, I have my notes and I have my photos and I still find it amazing how the roughest of segmented pieces can turn into a beautiful finished item.

Regards
Rob Sheehan
